## Special Love Bag Delivery

The organization Giving Hope & Help delivered LOVE Bags 4 Cancer to hospitalized male and female cancer patients on 5th Floor Hospital on Saturday, Feb. 10. The bags contained personal toiletries and inspirational novelties to uplift and inspire cancer patients in honor of Valentine's Day. Volunteers, dressed in red, delivered the bags topped

with balloons and filled with messages of compassion, hope and love.

Founder Jessica McClellan began the initiative in honor of her late niece who battled Hodgkin's lymphoma for six years until her death in 2016.

Nursing Director Connie Green (center) accompanied community volunteers who spread the message of hope and love to cancer patients on Valentine's Day. Since 2015, the volunteers have inspired over 200 cancer patients in Kansas City.
